## Experience

### Unified Mentor

Web Development Internship

June 2024 – July 2024

Remote

- Created Interactive Resume Builder Website Using HTML, CSS & JavaScript.
- Worked on two or three small projects during the internship time.
- Gained experience in developing, implementing web applications as well as front end part like React, and single page websites.

### Cod Soft

Java Development Internship

September 2023 – October 2023

Remote

- Enhanced Java programming skills and learned to debug and test applications effectively.
- Developed a Java application to calculate students' grades from various scores.
- Built a Java program for basic ATM functions like balance check, withdrawal, and deposit.

## Projects

### Interactive Resume Builder | HTML, CSS, JavaScript

- Used HTML and CSS to create a simple and attractive design for the resume builder.
- Made forms with JavaScript where users can easily enter and update their information.
- Added a feature to show changes in the resume instantly as users type.
- Built a function to save the resume as a PDF file, keeping the same look as on the screen.

### QR Generator | HTML, CSS

- Used HTML and CSS to create a clear and easy-to-use design.
- Made a box where users can type in their text or URL.
- Added a button to click and make the QR code.

### Chat Bot | HTML, CSS, JavaScript

- Used HTML and CSS to make a simple and user-friendly chat design.
- Created a chat area where users can see messages.
- Made a box where users can type and send messages using JavaScript.
- Added JavaScript to make the bot respond instantly.
